

SIKKIM- East Dikchu

Project Title: Sanitation & Solid Waste Management		
1	Aim of the project	To build modern and scientific Solid Waste Management. To effect behavioural change regarding healthy sanitation practices and generate awareness about sanitation and its linkage with public health. Provisioning of Individual Household Latrines & Community Toilets for residents and floating population
2	Short justification of the project	There is an absence of hardware for effective Solid Waste Management. These include a Community Collection Centre which is a shed for the storage of waste, treatment facilities for the wet waste being stored temporarily at these CCC, bio gas units at CCC wherever deemed feasible, and compactors for compaction of waste before they are sold to recyclers.
