

EDUCATION DEPARTMENT PUNJAB PROJECT IDF-IO

**(PROVISION OF BASIC INFRASTRUCTURAL FACILITIES IN
PRIMARY & UPPER PRIMARY SCHOOLS)**

**Submitted to
IDF-IO**

School Education

**Submitted by
School Education Department , Punjab**

Introduction

Sarv Shiksha Abhiyan & Rashtriya Madhyamic Shiksha Abhiyan is an effort for universalisation of secondary Education, retention & bridging gender gaps in education. The scheme is focused on the children in the age group of 6-14 & 14-18 years. Shiksha Abhiyan & Rashtriya Madhyamic Shiksha Abhiyan has proved to be a boon for government schools. Various Components are successfully working under this scheme for the betterment quality of education in Govt. Secondary and Senior Secondary Schools. To strengthen this aim, different types of Grant/Funds have been released every year for various components.

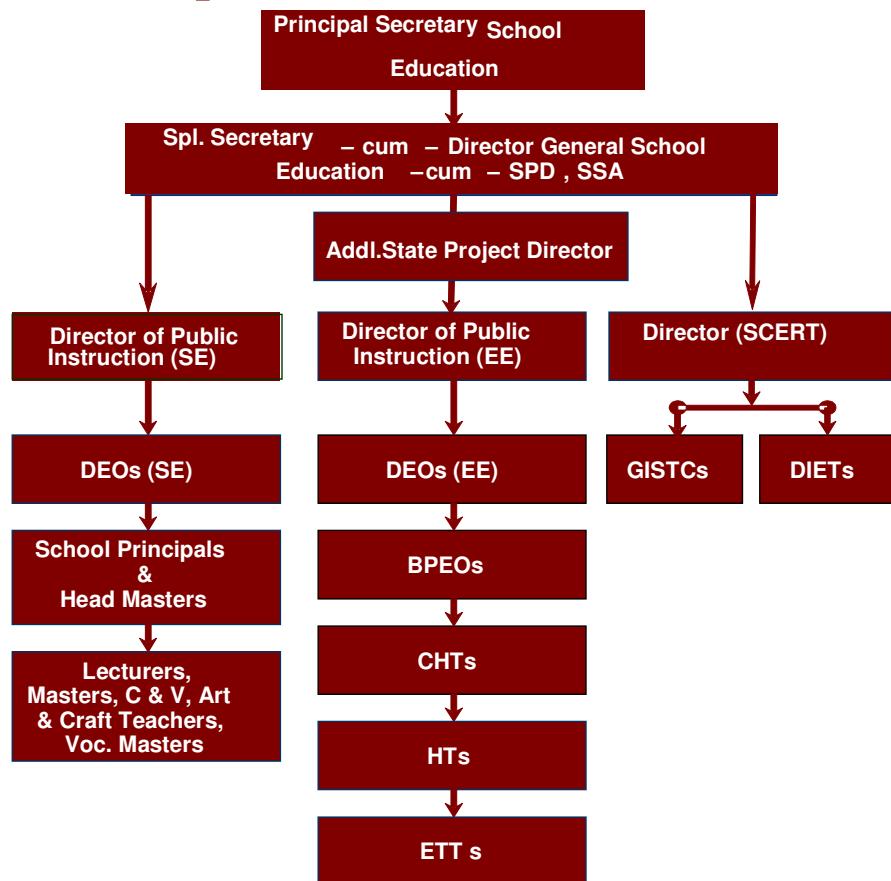

Civil Works is one of the Major Components of this Scheme under which grants have been released very year for the betterment of infrastructure facilities of Govt. Secondary and Senior Secondary Schools. Provision of adequate infrastructure helps in retaining children in the school as well as to create deep interest in the study.

Organizational Structure of Department of School Education, Punjab

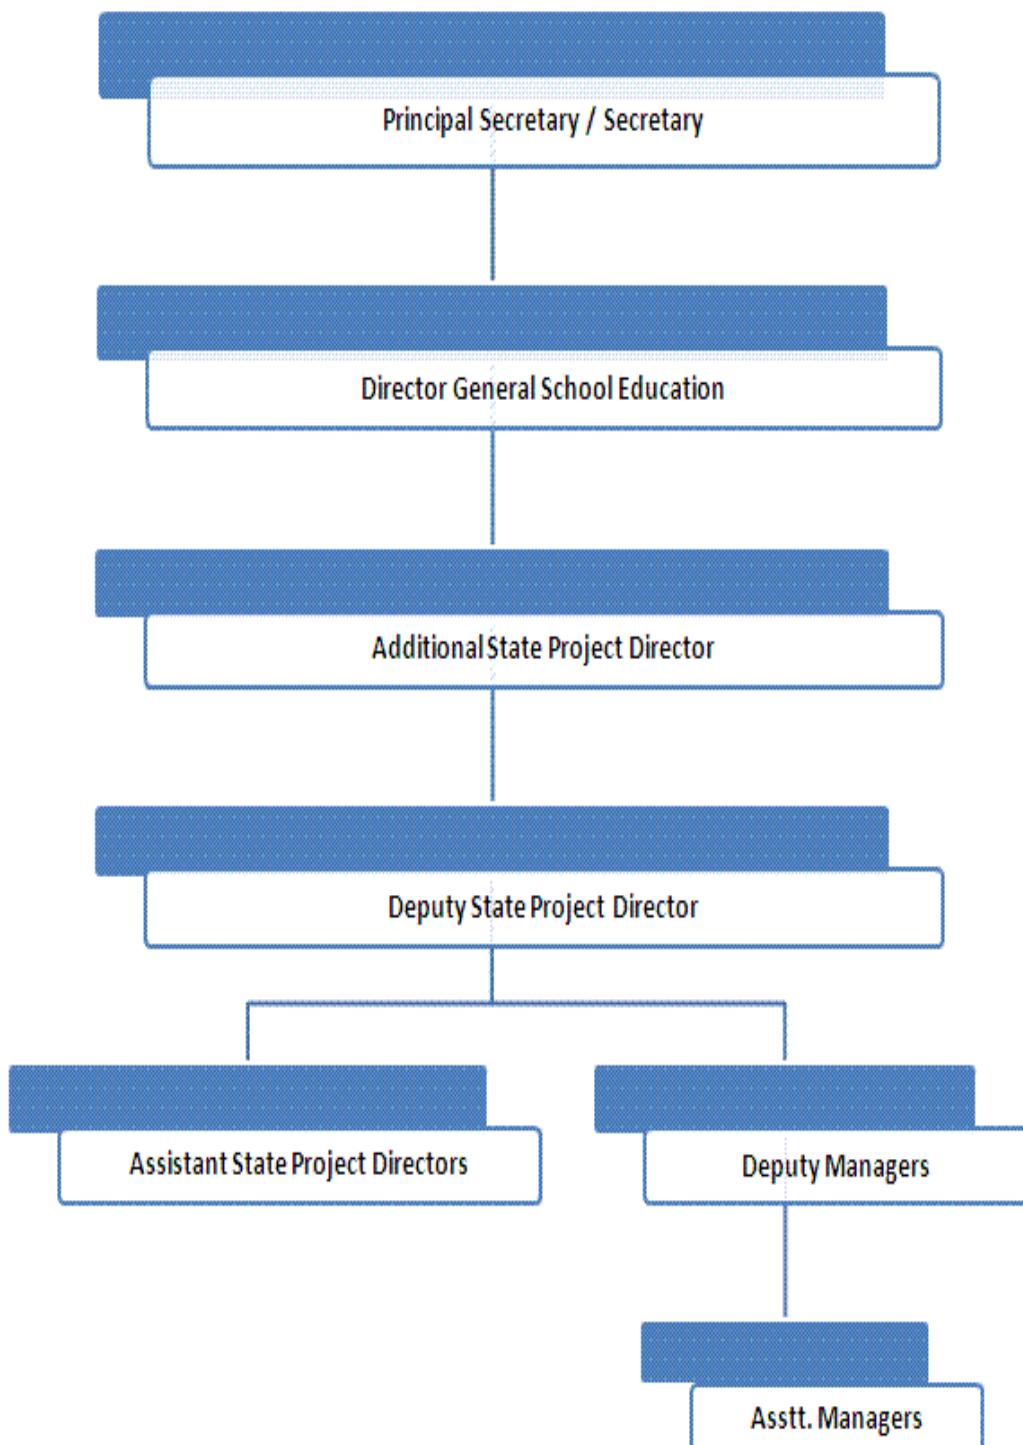

Department of Education, Punjab consists of:

- *Directorate of Public Instruction, Secondary Education,*
- *Directorate of Public Instruction, Elementary Education,*
- *State Council of Educational Research and Training (SCERT).*

Department of School Education

State Project Office (SSA/RMSA)

Aim & Objectives of Project

1. Better infrastructural facilities in schools will enhance the learning capability and health care of children , as the learning environment will improve substantially.
2. Provision of pure drinking water will save students from many water born diseases.
3. It will enhance the status of govt. schools in the State which will help in better enrolment in the schools.
4. It will encourage community participation & they will take more interest in all civil works constructions as the sense of responsibility will increase.
5. Employment generation will be encouraged as local artisans and labor shall be used in execution of the construction.

Sector

School Education Department

- **Additional Class Rooms**
- **Safe Drinking Water facilities**

Justification For the Project

To provide the better infrastructure facilities to Govt. Schools. The building of any school is one of the most important physical assets, which provides basic facility to the children. The child friendly building of the school builds a close relationship of children with School. Building of a school is a most influencing basic factor for the impenetrable existence of a school. The engravings of child friendly concepts on these buildings make them different to the prevailing simple structures of bricks and cement

in the surroundings. Civil works is an important component under the Rashtriya Madhyamik Shiksha Abhiyan which provides infrastructure to the Govt. schools in the State of Punjab.

Already constructed Classroom

Drinking water facility is the basic need of every school. Depending upon the source, the water from over-head tank can be highly contaminated with heavy metals, chemicals and biological impurities. Besides bacteria & virus, water from bore-well can harbor some of the deadliest known chemicals & metals like Fluoride, Arsenic, lead & many dissolved salts. The water coming out of the tap can contain rust, bacteria, cysts, sand and many a times even chemicals and dissolved salts. Therefore the only remedy is the provision of RO Systems to Schools where water is contaminated.

To Provide safe drinking water to students in Middle, High and Sr Secondary Schools 6487 Sample of water were tested in the laboratories of Public Health Department and 887 Samples were failed After the completion of course of testing of water the test reports revealed Bacteriological contamination, Presence of Chloride, nitrate and TDS found in water. The experts are of the opinion that unpotable water can cause Typhoid, Diarrhoea, Hepatitis, A and E, Cholorosis of teeth and bone, methamoglobinemia, and indigestion. Besides bacteria & virus, water from bore-well can harbor some of the deadliest known chemicals & metals like Fluoride, Arsenic, lead & many dissolved salts.

Depending upon the source, the water from over-head tank can be highly contaminated with heavy metals, chemicals and biological impurities.

The water coming out of the tap can contain rust, bacteria, cysts, sand and many a times even chemicals and dissolved salts.

The experts are of the opinion that presence of the Chloride, nitrate and TDS comes in permanent contamination which can be removed after Installation of RO (Reverse Osmosis) Plants only So RO Plant is compulsory in the Schools.

Whether Existing or New Project

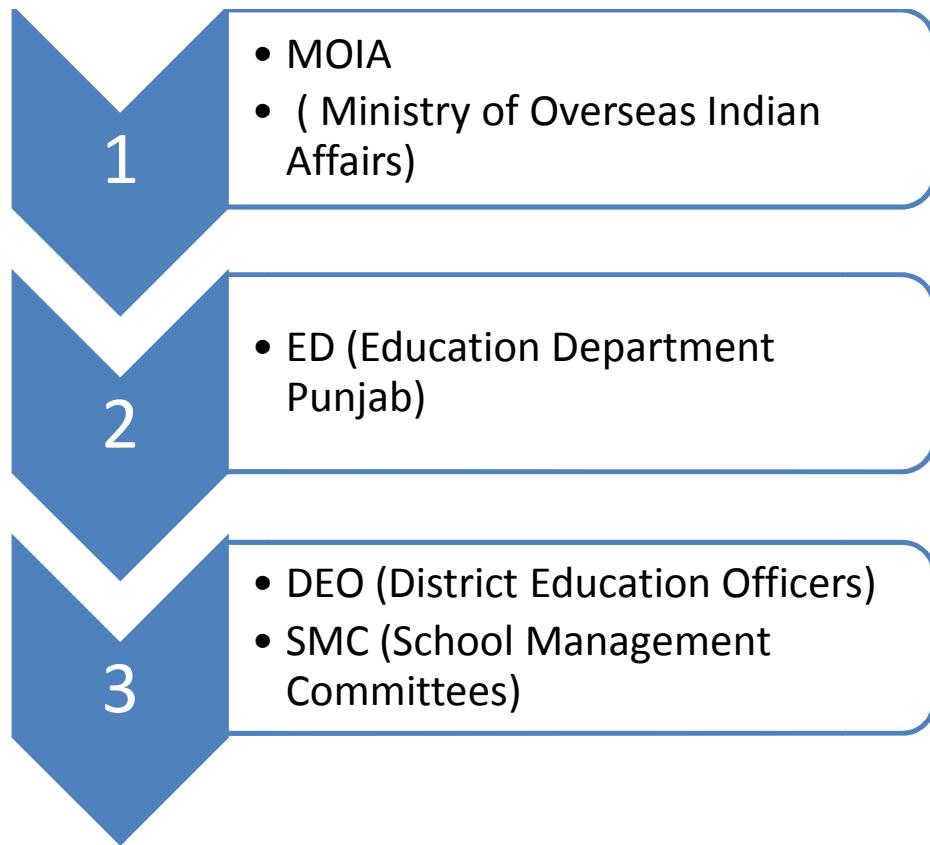

The Project will be considered as New One .Under this Project the New construction of Additional class Rooms of needy schools and fixing of RO System in Govt Schools will be carried out .

Implementing Agency

The project will be implemented by **community & School Management Committees** already formed at the school level. The role & contribution of community & local people is very important in all constructions at school level. The overall project will be implemented under the supervision of state level officers.

Fund Flow :

Funds Flow: The receipt of funds from various sources and their subsequent releases to district level and to SMC School level by RTGS , which will be monitored on a quarterly basis.

Accounting

The following books of accounts and registers shall be maintained by the school Head :

Cash Book , Cheque issue register , Bank Pass Book/Bank statement , Bill Register

(i) Stock Register (i) Capital Goods including fixed assets , Register of works , Fixed Assets Register , Dispatch Register , Any other books and accounts record which may be considered necessary for the day to day work of the schools shall also be maintained .

Project Locations

Land for construction of Additional Class Rooms across the State of Punjab has already been identified. These structures will be constructed within the school premises of:-

- Government Primary Schools
- Government Middle Schools
- Government High Schools
- Government Senior Secondary Schools

(List of Schools attached at Annexed at A,b,C)

Project Beneficiaries

The project will be beneficial for most of the govt. schools in tangible and for local community in intangible manner .

Tangible benefits:

Buildings constructed & Fixing of RO System for drinking water under project will be a permanent asset to the school.

Intangible benefits:

The project constructions will give employment to labor on daily basis & will benefit construction material & RO Systems vendors.

Total Number of beneficiaries

(Boys & Girls Students) = 522963

Technical Supervision Structure

The construction work of the Project will be executed , monitored & supervised by technical staff appointed at district & block level. All the works are monitored at different stages by concerned JEs. The staff statement is as follows.

Staff Statement of State/District & Block level

Sr. No.	State level		District level		Block level	
	Sanctioned posts		Sanctioned posts		Sanctioned posts	
	Designation	No.	Designation	No.	Designation	No.
1	Executive Engineer	1	S.D.O	22	J.E	216
2	ASPD(Civil Works)	1				
3	AM (Civil Works)	1				

Timeline for Construction

The following timeline should be followed :

1 Classroom :

Construction of the class rooms will be completed within 1 year after the release of funds.

2 RO System:

Regarding Safe Drinking Water the RO System will be fixed within 60 days after the release of funds.

Roles & Responsibility of Project Stakeholders

The project will be implemented by community & School Management Committees already formed at the school level. The role & contribution of community & local people is very important in all constructions at school level. The works under this project will be directly monitored by JEs & SDEs at Block & District levels respectively who will further report the periodic progress to the State Office.

Cost Estimation & guidelines

- All constructions will be done as per the technical Drawings .
- Executive Engineer at the State Level will be the competent authority to prepare the estimates & guidelines and DGSE is the competent authority to approve detailed costing with physical quantities and dimension/technical specifications of each sub-component . Detailed Estimate & Drawing of Additional class room annexed at X
- Guidelines will be prepared by Technical wing of SSA/RMSA

Specification Of Classroom & Ro Systems

(1) Classroom:

- i. Over All Size of The Classroom : 25'X20' with 6' wide Veranda .
- ii. Total Area : 749 SQFT
- iii. For Doors & Windows the Pressed Steel Frame (Chowkats) of 18 gauge (1.25mm thick steel) sheet of specific section steel grill also providing .
- iv. Providing RCC frame work like columns , Tie beam at plinth level & RCC Slab with Mild Steel reinforcement .
- v. First class Bricks laid in cement mortar 1:6 in foundation , Plinth & super structure .
- vi. Tile Terracing over two coats of hot bitumen & Mud fuska .
- vii. CC. Flooring 1.5 thick laid in 1:2:4 .
- viii. Factory made Solid Flush Door Providing .

- ix. Distemper with acrylic washable oil bound , exterior decorative cement based paints & painting door and windows .
- x. Ramp for CWSN with hand rail also provided .
- xi. Earth quick resistant designed .

RO System:

i.	Product	RO System
ii.	USP	High Purification Capacity upto 50 Ltr/Hour
iii.	Installation	For attachment with water coolers.
iv.	Technology	RO+UF+TDS Controller
v.	Purification Capacity	50 Litres/hour
vi.	Max Duty Cycle	250 Liters Day
vii.	Storage Tank Capacity	8/20 Liters (Optional)
viii.	Filter Cartridges	Sediment, Activated Carbon, Carbon Block, UF, Post Carbon.
ix.	Auto Flushing	Yes
x.	RO Membrane	Filmtec 1812-75 GPD (4 Nos)
xi.	UF Membrane	0.01 Micron
xii.	Min Inlet Water Pressure	0.3 Kg/Cm ²
xiii.	Max Inlet water Pressure	3 Kg/cm ²
xiv.	Input Voltage	100-300V Ac/(50Hz)
xv.	Operating Voltage	24V DC
xvi.	Dimensions	L450 W260 H870 (mm)
xvii.	Net Weight	27.50 Kgs

Installation, Warranty & After-Sales Service

- Installation shall be done free of cost at customer's premises
- Product warranty shall be effective from the date of installation. Warranty coverage period for different parts shall be as under:

All Electricals and Mechanical parts - 1 Year Consumables like RO Membrane & UF Membrane - 1 Year Consumables like Sediment Filter, Carbon Filter & Post Carbon Filter - 6 Months

- After-Sales service shall be provided at customer's premises on demand basis

Purification capacity tested on raw water with TDS level of 750 ppm at room temperature

Scope of work 2014-15

1. Additional Classroom (Rural & Urban)

- In order to enhance existing school building, additional classrooms are required for which the estimated cost will be :

No of Additional Class Rooms	Unit Cost (in Lacs)	Total Amount (in Lacs)
983	6.50	6389.5

2. Safe Drinking Water

- To provide Safe Drinking water facility is the basic need of every school. For this project proposed 2205 RO System to Govt. Primary Schools will cost as under :

No of RO System	Unit Cost (in Lacs)	Total Amount (in Lacs)
2205	0.30	661.5

- For the proposed 881 RO System to Govt. Upper Primary Schools , the cost will be as under :

No of RO System	Unit Cost (in Lacs)	Total Amount (in Lacs)
881	0.50	440.5
